MESSAGE FROM THE CHAIRMAN

IN A YEAR THAT REMAINS ATYPICAL WE  
WILL USE THE ADVANTAGES OF DIGITAL  
FOR THE EVENT THAT BRINGS THE SECTOR  
TOGETHER EVERY TWO YEARS, AND THIS  
YEAR, WITHOUT FRONTIERS.

# The Conference

## **1ST DIGITAL EVENT OF AN INITIATIVE THAT PRESENTS THE 13TH EDITION**

The main objective of the Conference is to disseminate the latest innovations and achievements in the scope of this type of construction, seeking to contribute decisively to the promotion, consolidation and expansion of the sector.

It is intended that the digital conference is a privileged opportunity for the exchange of ideas and experiences between the various stakeholders in the design and execution of steel and composite structures, as well as in the research and teaching activities in the area.

In this edition, "Digitalization" will be the theme of the event.

## VIDEO CHAT ROOM

User on hold

Meeting room moderator

### Can I do sessions for a wide audience inside my video chat room?

No, the limit of simultaneous users is 4. You can, however, use one of the external links to make a connection to a Zoom room (or similar) that you have prepared for this purpose.

### How does video chat work?

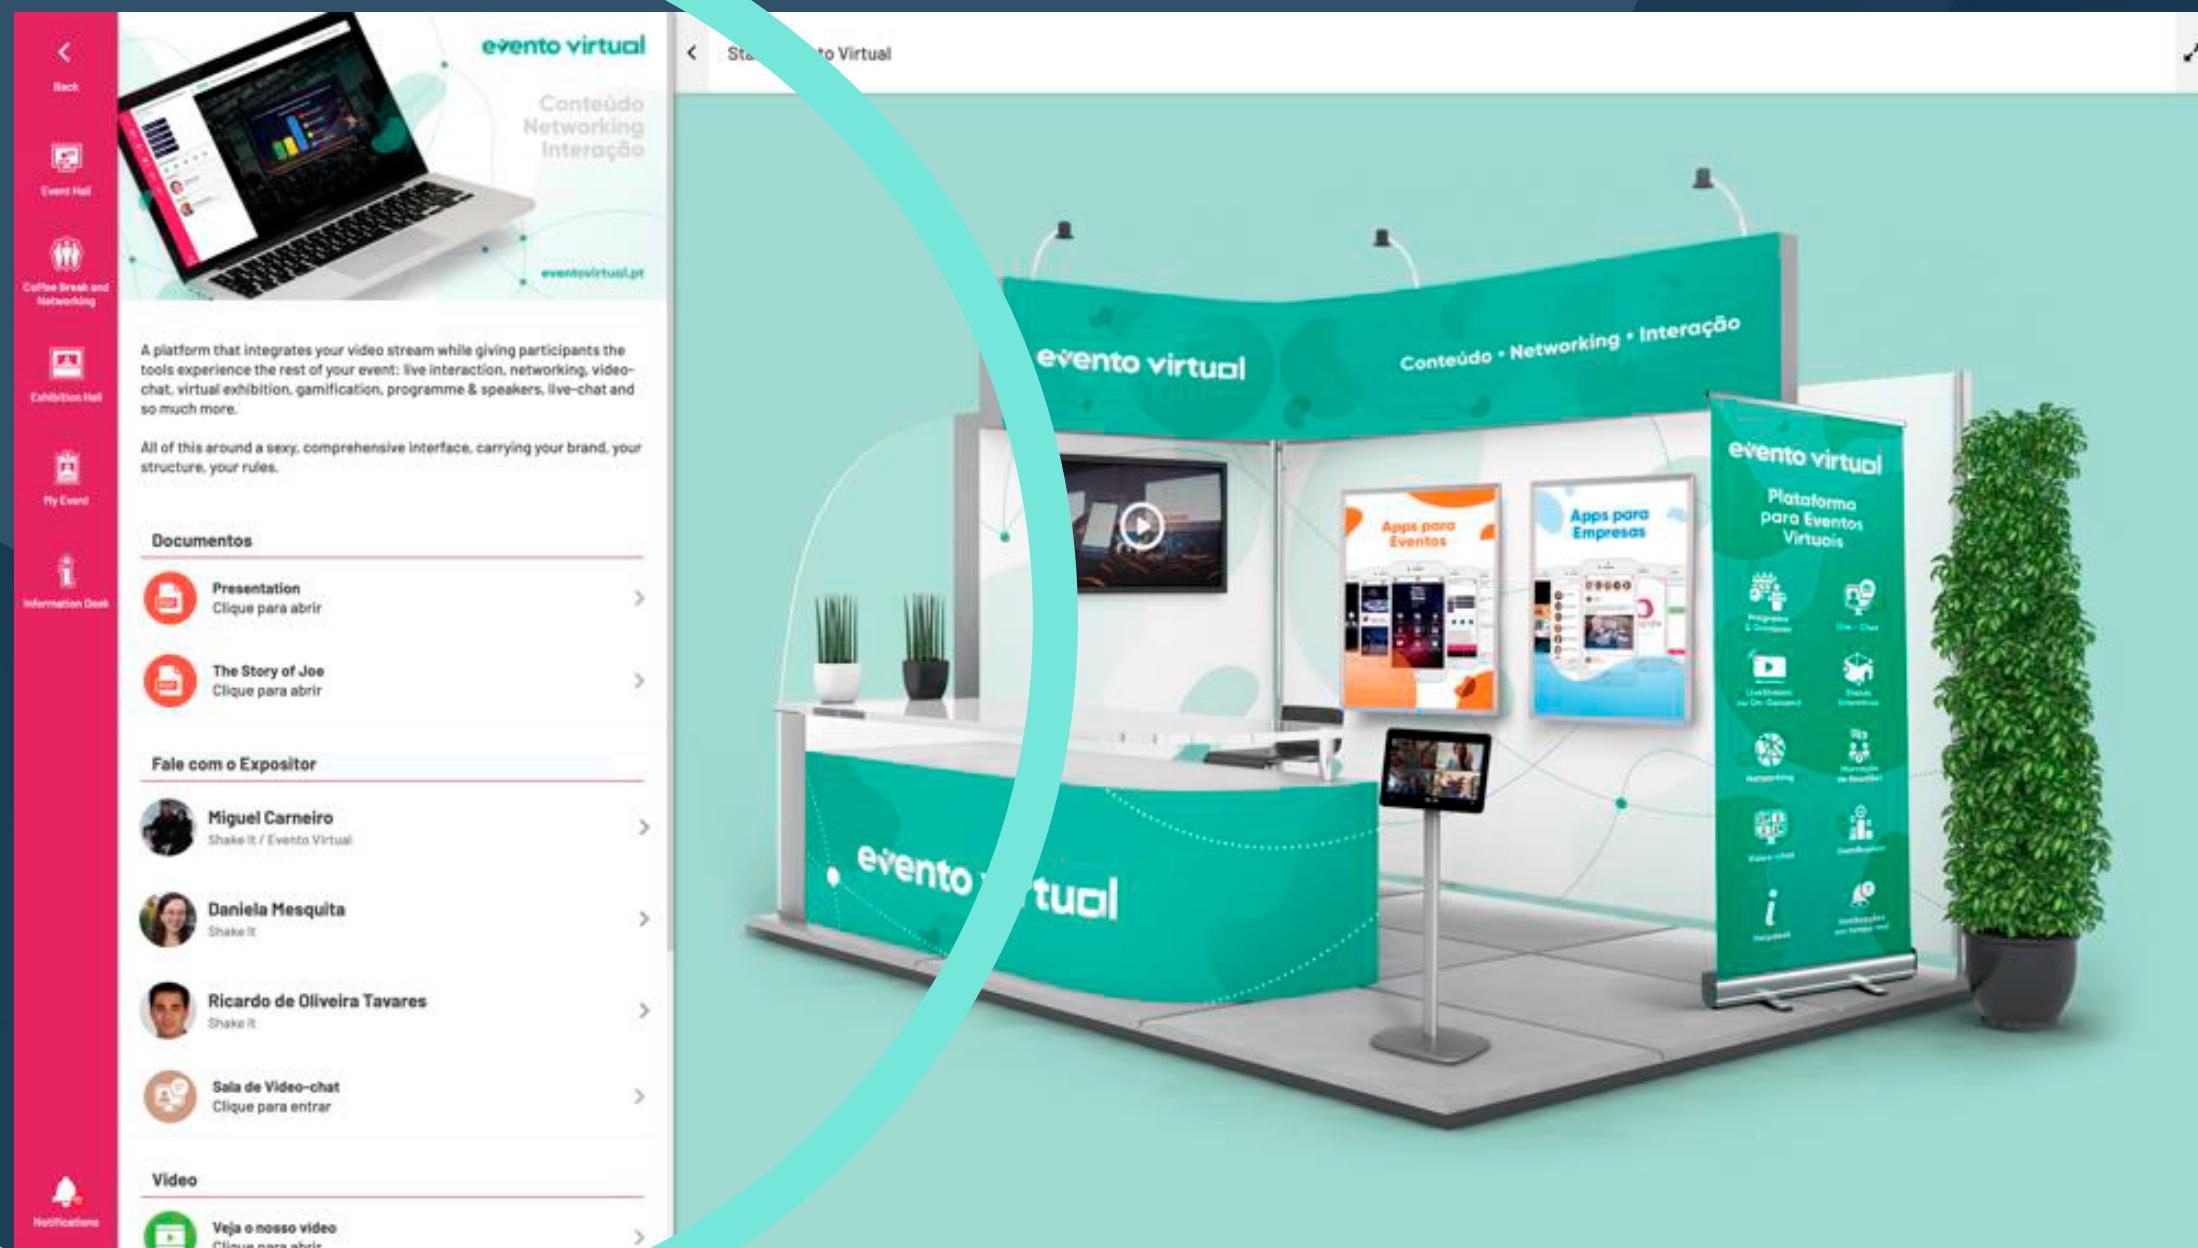

The video chat rooms of exhibitors have a waiting room. When someone enters the waiting room, the moderator of the room (one of his delegates configured in the file stand\_config.xlsx) will receive a notification. He can enter the room through his booth or by clicking on the notification. However, the most advisable thing is to always have the video chat room open, in order to serve users as quickly as possible.

### The moderator of the video chat room will have a panel in which he can:

- See people waiting and let them in;
- In the Definitions (upper right corner), change who, among the representatives of the booth, is the moderator of the video chat room;
- In the Settings, change the message displayed to the user in the waiting room, or eliminate the waiting room entirely (users will automatically enter the room, without the need for approval).

- > Questionnaire
- > Video Chat Room

# FOR COMPANIES THAT ALREADY HAVE A VIRTUAL EXHIBITION BOOTH

## PRESENTATION PAGE (RIGHT SIDE) - MARKED BELOW

The right side of your booth is the presentation page.

It consists of an image created by you (booth), with the specifications that we send on the next pages.

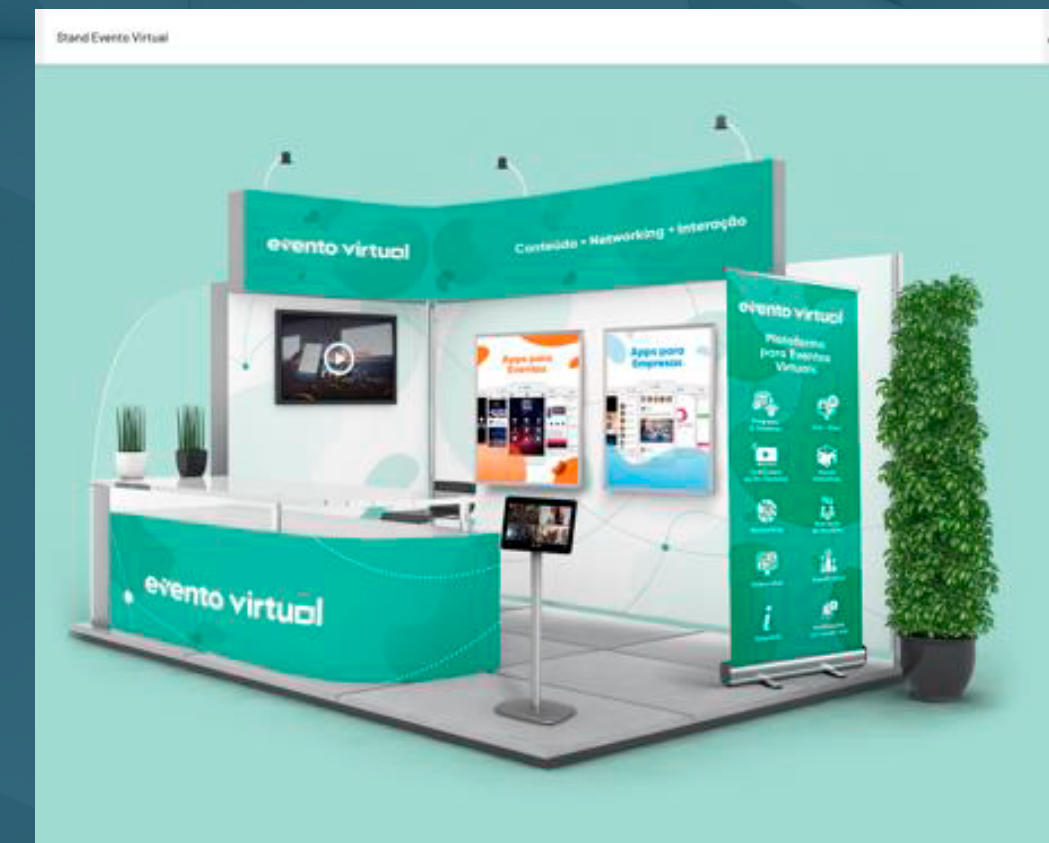

# APPLICATION OF THE COMPANY VIRTUAL EXHIBITION BOOTH PRESENTATION PAGE (RIGHT SIDE)

+

=

File name: stand.png  
Recommended dimension:  
1400x1080  
–Fully transparent.  
–Does not cover the entire space but  
adjusts due to its larger size on the screen  
(it gets as large as possible in the available  
space without distorting the image).

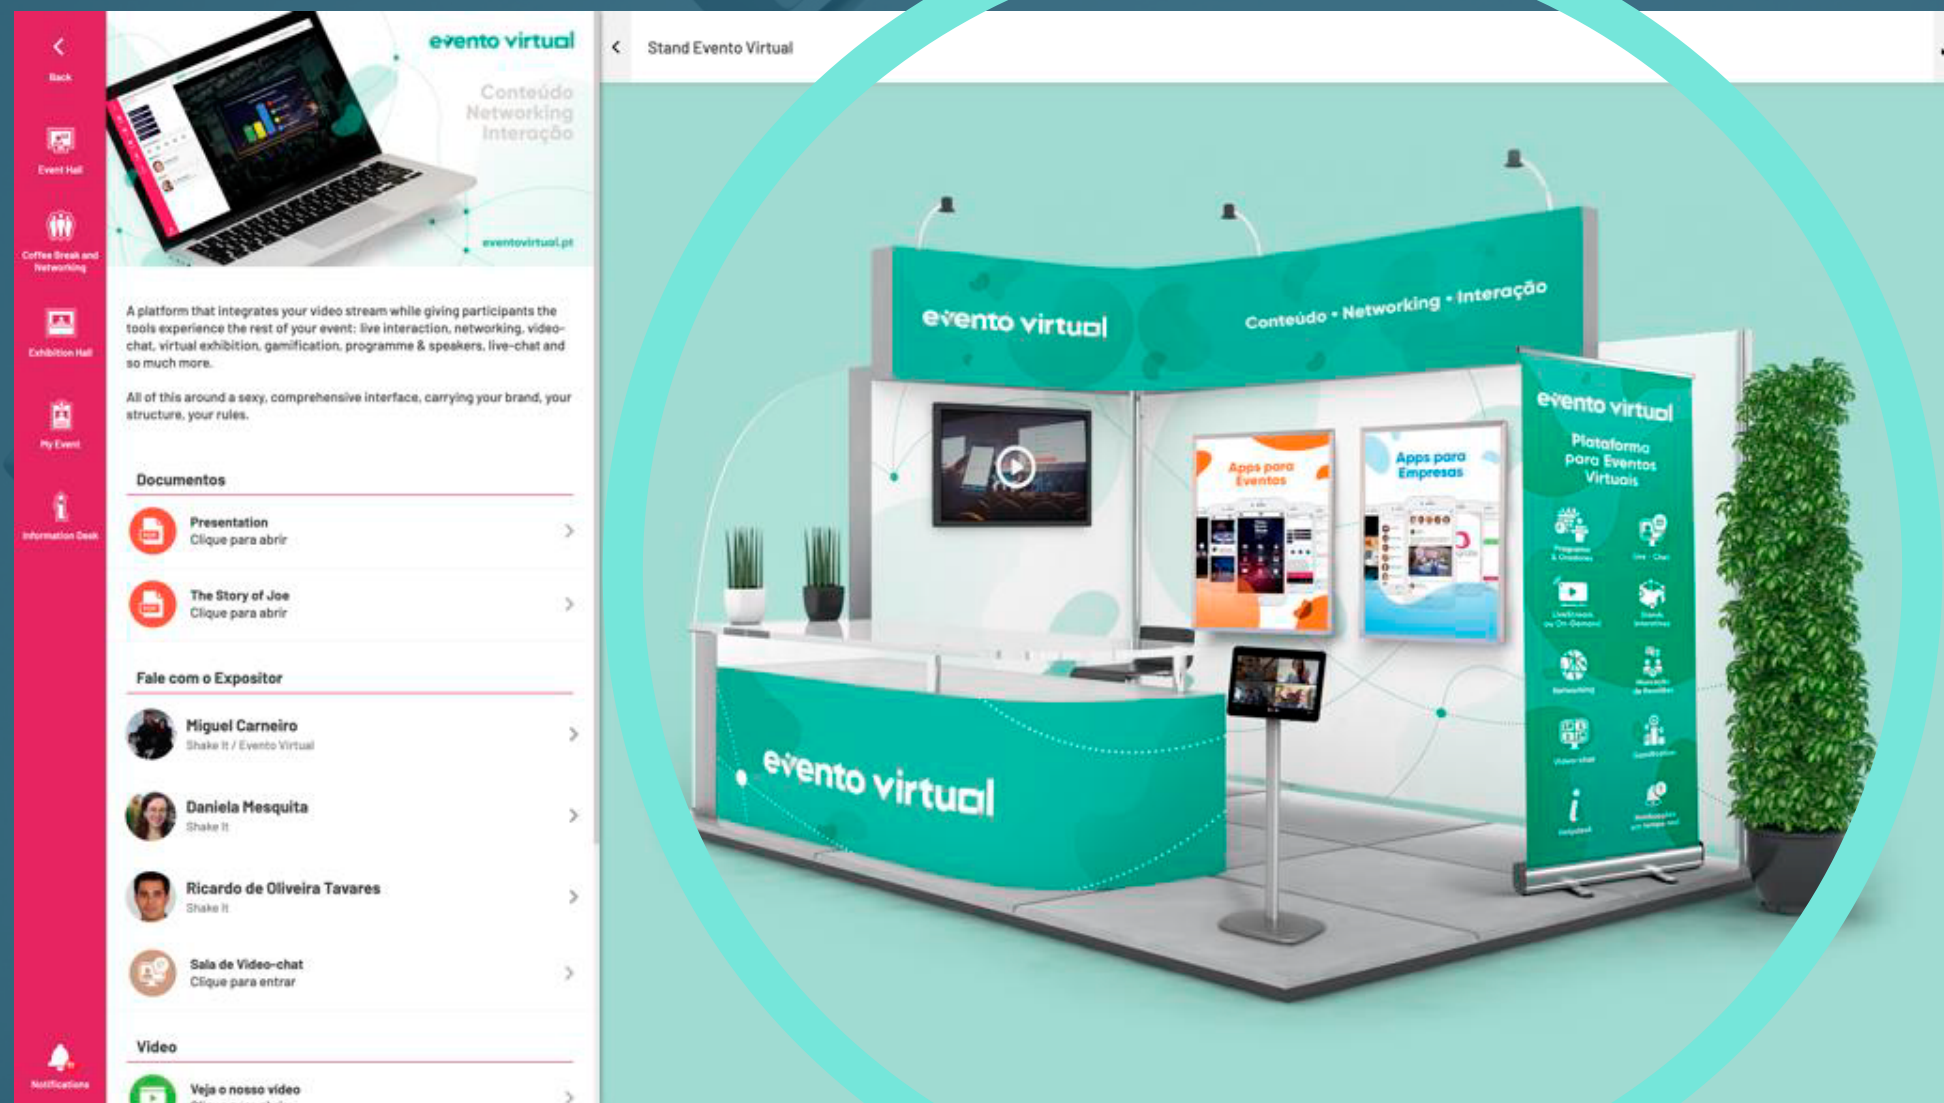

File name: background.jpg  
Recommended dimension: 1400x1080  
– It always takes up all the space on the  
right side, but cuts the areas the most. In  
this sense, it cannot have content that  
cannot be cut, nor is it guaranteed to be  
aligned with the stand.png.

The result of these two images is the right  
side of the stand, the presentation page.

# FOR COMPANIES THAT DO NOT HAVE A VIRTUAL EXHIBITION BOOTH

## BOOTH DESIGN FROM TEMPLATES

If you do not already have a Virtual Booth, on the next page you can choose one of the templates to apply your design (some final examples shown on the right).

1. Choose a template (next page)
2. Send an email with the chosen template
3. Receive the indications of the ideal dimensions for the images you intend to use on your stand (backgrounds, floors, roll-ups, banners, counters, walls, etc.)

There are two options for Booth. The Small Size Virtual Booth and the Big Size Virtual Booth. We send below the budget proposal for the creation of the respective booths:

Budget for the creation of Small Size Virtual Booth  
300 €

Budget for the creation of Big Size Virtual Booth  
400 €
